The Rise of ASIAN DRAGON

Asian Dragon

Contract: 0xF6dBE88bA55f1793Ff0773c9B1275300f830914F

The ASIAN DRAGON the People's Wealth Solutions

Our target of distribution Asian Dragon is in ASIA, as Asia is the Earth's largest and most populous continent, there are still many people not having enough equal opportunities or familiar with cryptocurrencies. Nonetheless, we very much welcome the rest of the world population to be involve in the ASIAN DRAGON movement so that it can be circulated widely and enhance the realization of this entire programme.

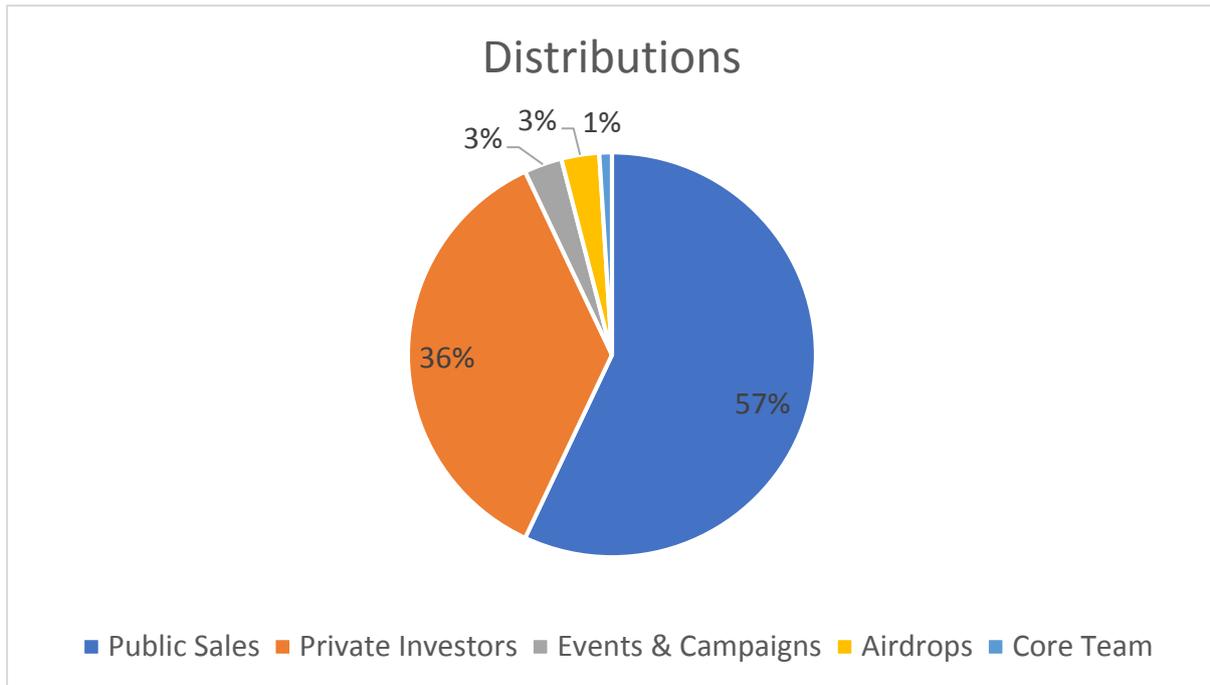

We are **NOT** seeking for any kind of public funds to develop something as we believe strongly it should be invested directly and/or privately by the person(s) who initiate this movement as it was from a vision moving forward. Thus, we have our own technology development team with vast experience in Smart Payment Technology ready and capable to develop any user-friendly application that allow the ASIAN DRAGON to be exchangeable, tradeable and used widely.

We will be focusing in getting the value of ASIAN DRAGON **to reach the equivalence or more of each Asian countries' currency values** in the next 5 years. By 2024, which coincident to be The Year of the Dragon, we hope the value will be in par with every individual Asian Countries currency value 1:1. With this value achieved, we hope people in Asia can use the ASIAN DRAGON as alternative means of payment denomination to purchase items they need for household items which we have plan to integrate Blockchain with our existing solutions across Asia in 2024.

ASIAN DRAGON is a Coin of Wealth, we will not try to implement something major that we cannot produce, nor we do not want to promise something that we cannot give. Thus, The ASIAN DRAGON with a singular **initial** agenda as the **Coin of Wealth** movement that can be achieve progressively. The tools and utilities will be introduced later in due time. We are not in hurry as we still have 5 years before the Year of the Dragon. We will not "Pump" or "Dump" or "Burn" in any shape or form to make the value goes up, we will let the "Exchanges" and "Investors" to do it part in assisting to grow the value of ASIAN DRAGON.

The Distribution Plan

Our goal on ASIAN DRAGON is to distribute it widely in Asia so that they can be owned and used for future transaction as what we have in planned. However, as much as we want every individual to have it, we cannot stop large investors, companies and partners that agreed with our approach and wishes to initially Invest in the ASIAN DRAGON. Nonetheless, we have set a certain appropriate distribution for everyone to have it.

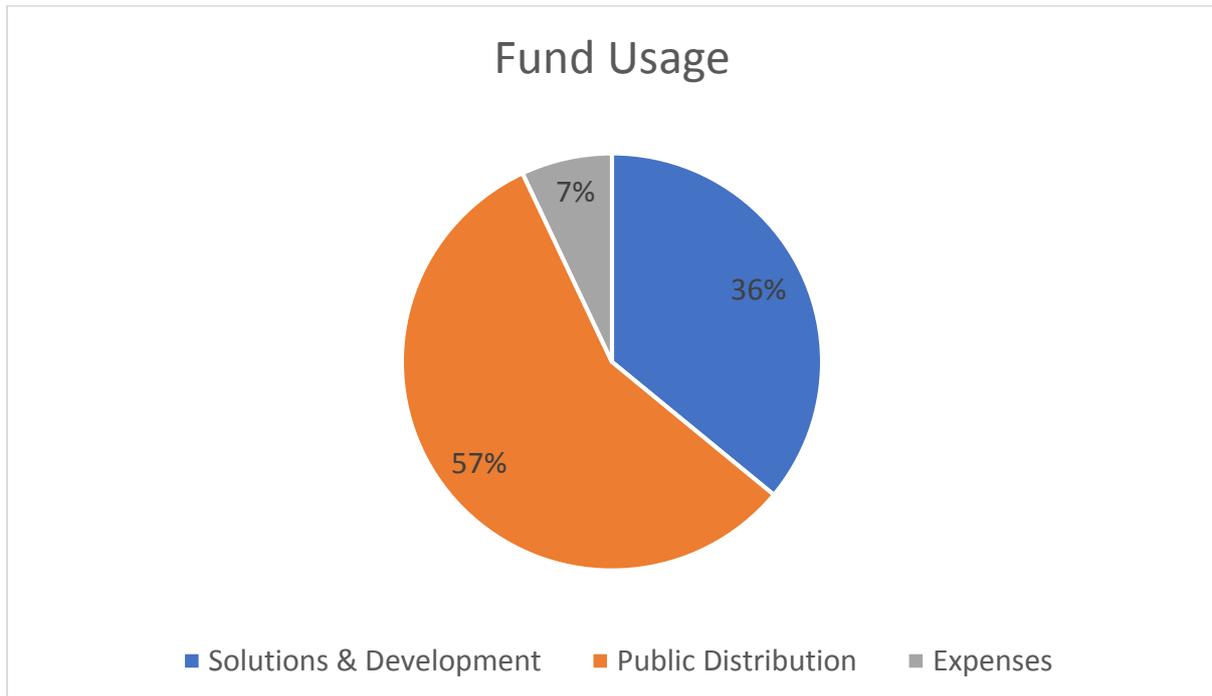

Distributions Break Down

The breakdown distributions of the ASIAN DRAGON are shown below. We will not change or altered this in any circumstance. All Ether address will show the exact amount it holds initially as the distribution address identification.

| TOTAL SUPPLY | Private Sales (Investors) | Public Sales | Events | Airdrops | Core Team |
|------------------------|---------------------------|--------------------|-------------------|------------|-----------|
| | 36% | 57% | 3% | 3% | 1% |
| 500,000,000 | 180,000,000 | 285,000,000 | 15,000,000 | 15,000,000 | 5,000,000 |
| Updates 16/4/19 | No Change | 282,024,878 | 16,730,000 | No Change | No Change |

| | |
|--------------------------|---|
| Owner: (100% - 0%) | 0x329f5B627B0c342B450c361f3A29c6Cd13C0D378 |
| Private Sales: (36%) | 0xd130b9d9c74e88f1997325b46887df30e513fa47 |
| Public Sales: (57%) | 0x8e78eB6F10A5e0B2dd0845D75b018b5ca0e23e4b |
| Events & Campaigns: (3%) | 0x4a3576F6D3862071D339152e00f9F48618189D13 |
| Airdrops: (3%) | 0x83Fc66062761675121D33791d62Ac4cc523D59E80 |
| Core Team: (1%) | 0x7bB112c61aF93584BeEc436c6B3aA49026A0D7CF |

The Solutions & Development of the intended application are fully pre-invested by the Private Investors which consist of 36% and the expenses at 7% (Events / Airdrop / Core Team @ 7%) of the total supply. This will give us the time to focus on the balance of 57% for the public to have.

Our price offered to the public on the day we release it shall remain (within) the same value as what have been offered to the Private Investors. This is to avoid any speculation from all parties. We are clear with the role of the private investors and it interests, and we are very familiar with the public investors and the "Holders" reasons. Therefore, we must be clear about the released price so that everyone has (almost) equal initial investment.

However, we cannot control the increment or decrement of the price from the date we agreed to the private investors compare to the public price at the time of released. Since Asian Dragon depends on Supply & Demands, we believe it will not be much gap difference.

IMPORTANT: Price may differ from the date / time of released.

Private Sales

ASIAN DRAGON has decided and agreed with the Private Sales concept for our existing partners and Investors. These are existing Technology Partners, Business Partners and Clients across Asia. They understood and support our vision in launching the ASIAN DRAGON which they want to be part of it. Nonetheless, we will not make it entirely Private sales as it defeats the purpose and not our main objective. We've allocated 36% for Private Sales which already pre-agreed and sold to Investors across Asia in December 2018 and officially transferred in February 2019. We will not make additional allocation for other private investors. Those still Interested can get them via the Public Sales.

Pre-Sales (Initial Offering) & Exchanges

There will be **NO initial Offering** or **Pre-sales** for the Public accept for **Private Investors** and existing partners. We will release it respectively via Exchanges for public to purchase. We will try our very best to get ASIAN DRAGON listed on as many Exchange as we can. We will release to exchanges on case-to-case basis, we will not rush or push ourselves as this will be a long term approached with a minimum of 5 years period.

Initial Price Offered to Private Investors (Fixed and agreed on 31st December 2018)

| | | | |
|---|---------------------|---|----------------------|
|  | ETH 0.000018 |  | USD\$ 0.00188 |
|---|---------------------|---|----------------------|

Airdrops

The Airdrop will have its own allocated fund, we will conduct airdrops for all ASIAN DRAGON holders. To qualify for the Airdrop, you need to register, agree to the terms and conditions and follow the basic guide. We want the Airdrop to be as simple as possible and not complicated or too demanding. The Airdrop will concluded once we have depleted the fund in the Airdrop account. We will not add or "Top-up" this account with any new amount.

Events

Similar to Airdrop, the Asian Dragon's events programme has its own account where it will be used to distribute the amount to the participants. Once it depleted, we will not add or "Top-up" this account with any new amount. If you wish to participate, please ensure that you registered, agree to the terms and conditions and follow the basic rule of the event. All event schedule will be published on the website event calendar.

Core Team

The Core Team are the permanent staff which comprise of Developers, Programmers and Administration, we have set aside a small amount to reward them for their work. They will manage all the events and campaigns activities; however, they will NOT take part in any of the events or making decision on any outcome of the events. **Example**, if Asian Dragon's Event introduce a "Dragon Drawing" competition, the selections or choosing the winner will not be made by the core team but instead, by the public/members themselves through online voting system. The winners selected by the voting process will receive the rewards directly from the event account to their wallet address.

Anonymity

As much as we want to share, disclose and boast about our organization identity to world, we are being legally advised by our lawyers many times not to do so until several jurisdiction red tapes have been removed. All our Solutions Partners and Private Investors also have chosen to remain anonymous until clearer mandate of the government's decisions and intentions on Cryptocurrency are made public. We are an active registered company, operating in countries where we face restriction from certain agencies enforcing the rules of law that being set upon companies that involve in Cryptocurrencies activities. We are being brutally honest and truthful about our Whitepaper as we are an active Solutions & Technology company that develop and integrate smart payment system throughout South East Asia using our technology and application. Realistically, we are not prepared in any way to jeopardize our current business existent just to chase dreams and visions that will help many people benefits with our ideology. Unfortunately, technical legality does not believe in good deeds. Therefore, we wish to remain anonymous. For now.

Due to this reason, there will be **NO** allocating of tokens for the owner, the management and advisors. This have been decided and advised by our legal advisors since we decided to remain anonymous due to uncertain legal implication that may be enforce by the law of the land that govern it. One may ask, how are we going to profits if we take none, honestly, we have existing solution running that yield profits, if we add Cryptocurrencies "Addon Solutions" onto the current payment technology without any legal implication for doing it, we may make more than what we intended to get. We are being realistic and that how we look from business perspective in long run. The more people get onto the solutions, the more business will be made. With Cryptocurrencies enable, there is so much more to look forward and with ASIAN DRAGON (AD) as the primary payment token, we will generate more transaction.

Projects & Developments

As an active solutions company in Asia, we will produce on our own solutions to support our intentions and vision. This is the reasons why our existing partners agreed with our approach and concept by only introduce “Addon” into the existing application to accept all cryptocurrencies transaction in 2024 moving forward. The existing system already running smoothly, all we need to do is to enhance it so that it can transact alongside blockchain and not by creating entirely new system. Nonetheless, building a new solution solely on blockchain was never put-off permanently, we still have the plan and ready to go production if needed. It will depend on the Business & Technology partners decision as they have agreed with the initial investment for us to develop it if needed. Again, we MUST stress out the legal implication which also a major concern to all our partners in Asia. If the “addon solutions concept” faced major hurdle with the law due to integration with existing fiat, we will switch to pure blockchain concept.

When the time is right and clear from all legal uncertainty over Cryptocurrencies, we will announce the project that we have deployed and the enhancement tools or if we must release a new payment gateway purely on Blockchain due to banks restrictive rules. We are looking at February 10th, 2024 The Year of the Dragon to properly introduce it in Asia as we hope by then, the respective people that govern the land will have finalized their intention and views towards Cryptocurrencies and the public may use our solutions without being afraid of government backlash.

- End of Whitepaper

WHITEPAPER GENERAL TERMS & CONDITIONS

ASIAN DRAGON referred as “ASIAN DRAGON (AD)” or “ASIAN DRAGON (AD)” or “Asian Dragon Technology” or “ASIAN DRAGON SOLUTIONS“ in the White Paper Document and in this general terms and conditions.

The sale of Tokens is only intended for, made to or directed at, only persons outside the country that legally prohibited or restricted Cryptocurrencies, and may be acted upon only by persons outside this country. Moreover, this White Paper is not a prospectus or offer document of any sort and is not intended to be an offer, invitation or solicitation to buy or sell currencies, securities of any form, units in a business trust, units in a collective investment scheme, commodities, swaps or derivatives in respect of any of the foregoing, or any other form of investment or financial asset, product or instrument in any jurisdiction. No regulatory authority has examined or approved of any of the information set out in this White Paper. This White Paper has not been registered with any regulatory authority in any jurisdiction. By accessing and/or accepting possession of any information in this White Paper or such part thereof (as the case may be), you represent and warrant to ASIAN DRAGON (AD) that:

- a) you are not an Excluded Person (as defined herein), or a citizen or resident of a country the laws of which prohibit or conflict with the ASIAN DRAGON (AD) or your participation in the ASIAN DRAGON (AD) (as referred hereto in the White Paper);
- b) you agree to be bound by the limitations and restrictions described herein; and
- c) you acknowledge that this White Paper has been prepared for delivery to you so as to assist you in making a decision as to whether to purchase Tokens.

IMPORTANT INFORMATION

PLEASE READ THIS DISCLAIMER SECTION CAREFULLY. IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S).

This White Paper in its current form is circulated by the Issuer for general information and to invite participant feedback only on the ASIAN DRAGON SOLUTIONS and the Tokens as presently conceived and is subject to review and revision by the owner of the Issuer, the board of advisors and/or legal advisors of the Issuer. Please do not replicate or distribute any part of this White Paper without this section in accompaniment. The information set forth below may not be exhaustive and no part of this White Paper is intended to create legal relations between a recipient of this White Paper or to be legally binding or enforceable by such recipient against the Issuer. An updated version of this White Paper may be published at a later date and to be announced by the Issuer in due course.

PLEASE READ THIS SECTION AND THE FOLLOWING SECTIONS ENTITLED “DISCLAIMER OF LIABILITY”, “NO REPRESENTATIONS AND WARRANTIES”, “REPRESENTATIONS AND WARRANTIES BY YOU”, “CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS”, “THIRD PARTY INFORMATION AND NO CONSENT OF OTHER PERSONS”, “TERMS USED”, “NO ADVICE”, “NO FURTHER INFORMATION OR UPDATE”, “RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION”, “NO OFFER OF INVESTMENT OR REGISTRATION” AND “RISKS AND UNCERTAINTIES” CAREFULLY. IF YOU ARE IN ANY DOUBT AS TO THE ACTION YOU SHOULD TAKE, YOU SHOULD CONSULT YOUR LEGAL, FINANCIAL, TAX OR OTHER PROFESSIONAL ADVISOR(S).

While we make every effort to ensure that any material in this White Paper is accurate and up to date, such material in no way constitutes the provision of professional advice. The Issuer does not guarantee, and accepts no legal liability whatsoever arising from or connected to, the accuracy, reliability, currency, or completeness of any material contained in this White Paper. Participants and potential Token holders should seek appropriate independent professional advice prior to relying on, or entering into any commitment or transaction based on, material published in this White Paper, which material is purely published for reference purposes alone. The Tokens are proprietary cryptographic tokens developed and issued by the Token Developer to function as the native utility token used in the ASIAN DRAGON SOLUTIONS as the means of value exchange and to power the ASIAN DRAGON SOLUTIONS.

The Tokens are not intended to constitute currencies, securities of any form, units in a business trust, units in a collective investment scheme, commodities, swaps or derivatives in respect of any of the foregoing, or any other form of investment or financial asset, product or instrument in any jurisdiction. This White Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer, invitation or solicitation to buy or sell currencies, securities of any form, units in a business trust, units in a collective investment scheme, commodities, swaps or derivatives in respect of any of the foregoing, or any other form of investment or financial asset, product or instrument in any jurisdiction. No regulatory authority has examined, approved or registered this White Paper. No action has been or will be taken by the Issuer to obtain such examination, approval or registration under the laws, regulatory requirements or rules of any jurisdiction. The provision of this White Paper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with. The Issuer or this White Paper does not constitute or form part of any opinion on any advice to purchase, sell or otherwise transact with Tokens and the fact of presentation of this White Paper shall not form the basis of, or be relied upon in connection with, any contract of investment decision.

THE ASIAN DRAGON (AD) (AS REFERRED TO IN THIS WHITE PAPER) IS INTENDED FOR, MADE TO OR DIRECTED AT ONLY, AND MAY BE ACTED UPON ONLY BY, PERSONS OUTSIDE THE COUNTRY THAT PROHIBITED OR RESTRICTED CRYPTOCURRENCIES AND RESIDING OUTSIDE A COUNTRY WHERE UNITED NATIONS SANCTIONS ARE IN FORCE. ACCORDINGLY, YOU ARE NOT ELIGIBLE, AND YOU ARE NOT TO PURCHASE ANY TOKENS IN THE ASIAN DRAGON (AD) (A) IF YOU ARE LOCATED IN THE COUNTRIES THAT PROHIBITED OR RESTRICTED CRYPTOCURRENCIES OR A COUNTRY WHERE UNITED NATIONS SANCTIONS ARE IN FORCE AT THE TIME OF YOUR INTENDED PURCHASE OR PURCHASE OF ASIAN DRAGON (AD) TOKENS; OR (B) IF YOU ARE A CITIZEN, DOMICILED IN, OR RESIDENT OF THE COUNTRIES THAT PROHIBITED OR RESTRICTED CRYPTOCURRENCIES OR A COUNTRY WHERE UNITED NATIONS SANCTIONS ARE IN FORCE (“EXCLUDED PERSONS”).

No Token should be construed, interpreted, classified or treated as enabling, or according any opportunity to, purchasers to participate in or receive profits, income, or other payments or returns arising from or in connection with the ASIAN DRAGON SOLUTIONS or the Tokens or the proceeds of the ASIAN DRAGON (AD), or to receive sums paid out of such profits, income, or other payments or returns. No person is bound to enter into any contract or binding legal commitment in relation to the sale and purchase of the Tokens, and no cryptocurrency or other form of payment is to be accepted on the basis of this White Paper. Any agreement as between the Issuer and you as a purchaser, and in relation to any sale and purchase, of Tokens is to be governed by only a separate document setting out the terms and conditions (the “Terms and Conditions”) of such agreement. In the event of any inconsistencies between the Terms and Conditions and this White Paper, the former shall prevail. There are risks and uncertainties associated with the Issuer and its business and operations, the Tokens, the ASIAN DRAGON SOLUTIONS or protocol and the ASIAN DRAGON (AD). Please refer to the section entitled “Risks and Disclosures” set out at the end of this White Paper.

This White Paper, any part thereof and any copy thereof must not be taken or transmitted to any country where distribution or dissemination of this White Paper is prohibited or restricted. No part of this White Paper is to be reproduced, distributed or disseminated without including this section and the following sections entitled “Disclaimer of Liability”, “No Representations and Warranties”, “Representations and Warranties by You”, “Cautionary Note On Forward-Looking Statements”, “Third Party Information and No Consent of Other Persons”, “Terms Used”, “No Advice”, “No Further Information or Update”, “Restrictions On Distribution and Dissemination” and “Risks and Uncertainties”.

DISCLAIMER OF LIABILITY

To the maximum extent permitted by the applicable laws, regulations and rules, the Issuer shall not be liable for any indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this White Paper or any part thereof by you.

NO REPRESENTATIONS AND WARRANTIES

The Issuer does not make or purport to make, and hereby disclaims, any representation, warranty or undertaking in any form whatsoever to any entity or person, including any representation, warranty or undertaking in relation to the truth, accuracy and completeness of any of the information set out in this White Paper.

REPRESENTATIONS AND WARRANTIES BY YOU

By accessing and/or accepting possession of any information in this White Paper or such part thereof (as the case may be), you represent and warrant to the Issuer as follows:

- a) you agree and acknowledge that the Tokens do not constitute currencies, securities of any form, units in a business trust, units in a collective investment scheme, commodities, swaps or derivatives in respect of any of the foregoing, or any other form of investment or financial asset, product or instrument in any jurisdiction;
- b) you are not an Excluded Person, or a citizen or resident of a country the laws of which prohibit or conflict with the ASIAN DRAGON (AD) or your participation in the ASIAN DRAGON (AD);
- c) you agree and acknowledge that this White Paper does not constitute a prospectus or offer document of any sort and is not intended to constitute an offer, invitation or solicitation to buy or sell currencies, securities of any form, units in a business trust, units in a collective investment scheme, commodities, swaps or derivatives in respect of any of the foregoing, or any other form of investment or financial asset, product or instrument in any jurisdiction, and you are not bound to enter into any contract or binding legal commitment and no cryptocurrency or other form of payment is to be accepted on the basis of this White Paper;
- d) you acknowledge and understand that no Token should be construed, interpreted, classified or treated as enabling, or according any opportunity to, Token holders to participate in or receive profits, income, or other payments or returns arising from or in connection with the Tokens or the proceeds of the ASIAN DRAGON (AD), or to receive sums paid out of such profits, income, or other payments or returns;
- e) you agree and acknowledge that no regulatory authority has examined, approved or registered this White Paper, no action has been or will be taken by the Issuer to obtain such examination, approval or registration under the laws, regulatory requirements or rules of any jurisdiction and the publication, distribution or dissemination of this White Paper to you does not imply that the applicable laws, regulatory requirements or rules have been complied with;
- f) you agree and acknowledge that this White Paper, the undertaking and/or the completion of the ASIAN DRAGON (AD), or future trading of Tokens on any cryptocurrency exchange, shall not be construed, interpreted or deemed by you as an indication of the merits of the Issuer, the Tokens, the ASIAN DRAGON (AD), and the ASIAN DRAGON SOLUTIONS or protocol;
- g) the distribution or dissemination of this White Paper, any part thereof or any copy thereof, or acceptance of the same by you, is not prohibited or restricted by the applicable laws, regulations or rules in your jurisdiction, and where any restrictions in relation to possession are applicable, you have observed and complied with all such restrictions at your own expense and without liability to the Issuer;
- h) you agree and acknowledge that in the case where you wish to purchase any Tokens, Tokens are not to be construed, interpreted, classified or treated as:
- i) any kind of currency other than cryptocurrency;
- j) debentures, stocks or shares issued by any person or entity;
- k) rights, options or derivatives in respect of such debentures, stocks or shares;
- l) rights under a contract for differences or under any other contract the purpose or pretended purpose of which is to secure a profit or avoid a loss;

securities;

- a) units or derivatives of units in a business trust;
- b) units in a collective investment scheme; or
- c) any form of regulated investment or investment product;
- d) you are fully aware of and understand that you are not eligible, and you are not to purchase any Tokens if you are an Excluded Person;
- e) you are legally permitted to participate in the ASIAN DRAGON (AD) and all actions contemplated or associated with such purchase, including the holding and use of Tokens;
- f) the amounts that you use to purchase Tokens were not and are not directly or indirectly derived from any activities that contravene the laws and regulations of any jurisdiction, including anti-money laundering laws and regulations;
- g) if you are a natural person, you are of sufficient age and capacity under the applicable laws of the jurisdiction in which you reside and the jurisdiction of which you are a citizen to participate in the ASIAN DRAGON (AD);
- h) you are not obtaining or using Tokens for any illegal purpose;
- i) none of:

(i) you; (ii) any person controlling or controlled by you; (iii) if you are a privately-held entity, any person having a beneficial interest in you; or (iv) any person for whom you are acting as agent or nominee in connection with ASIAN DRAGON (AD), is a senior foreign political figure, or any immediate family member or close associate of a senior foreign political figure. A “senior foreign political figure” is defined as a senior official in the executive, legislative, administrative, military or judicial branch of a government (whether elected or not), a senior official of a major political party, or a senior executive of a foreign government-owned corporation, and includes any corporation, business or other entity that has been formed by, or for the benefit of, a senior foreign political figure.

“Immediate family” of a senior foreign political figure typically includes such figure’s parents, siblings, spouse, children and in-laws. A “close associate” of a senior foreign political figure is a person who is widely and publicly known to maintain an unusually close relationship with such senior foreign political figure, and includes a person who is in a position to conduct substantial domestic and international financial transactions on behalf of such senior foreign political figure;

(o) if you are affiliated with a non-U.S. banking institution (“Foreign Bank”), or if you receive deposits from, make payments on behalf of, or handle other financial transactions related to a Foreign Bank, you represent and warrant to the Issuer that: (i) the Foreign Bank has a fixed address, and not solely an electronic address, in a country in which the Foreign Bank is authorised to conduct banking activities; (ii) the Foreign Bank maintains operating records related to its banking activities; (iii) the Foreign Bank is subject to inspection by the banking authority that licensed the Foreign Bank to conduct its banking activities; and (iv) the Foreign Bank does not provide banking services to any other Foreign Bank that does not have a physical presence in any country and that is not a regulated affiliate;]

(p) you have a basic degree of understanding of the operation, functionality, usage, storage, transmission mechanisms and other material characteristics of cryptocurrencies, blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology; you are fully aware and understand that in the case where you wish to purchase any Tokens, there are risks associated with the Issuer and its businesses and operations, Tokens, the ASIAN DRAGON SOLUTIONS or protocol and the ASIAN DRAGON (AD); you bear the sole responsibility to determine what tax implications purchasing Tokens may have for you and agree not to hold the Issuer or any other person involved in the ASIAN DRAGON (AD) liable for any tax liability associated with or arising therefrom; you agree and acknowledge that the Issuer is not liable for any direct, indirect, special, incidental, consequential or other losses of any kind, in tort, contract or otherwise (including but not limited to loss of revenue, income or profits, and loss of use or data), arising out of or in connection with any acceptance of or reliance on this White Paper or any part thereof by you; you waive the right to participate in a class action lawsuit or a class wide arbitration against the Issuer and/or any person involved in the ASIAN DRAGON (AD) and/or with the creation and distribution of Tokens or the ASIAN DRAGON SOLUTIONS; and all of the above representations and warranties are true, complete, accurate and non-misleading from the time of your access to and/or acceptance of possession this White Paper or such part thereof (as the case may be).

CAUTIONARY NOTE ON FORWARD-LOOKING STATEMENTS

All statements contained in this White Paper, statements made in press releases or in any place accessible by the public and oral statements that may be made by the Issuer or its directors, executive officers or employees acting on behalf of the Issuer (as the case may be), that are not statements of historical fact, constitute “forward-looking statements”. Some of these statements can be identified by forward-looking terms such as “aim”, “target”, “anticipate”, “believe”, “could”, “estimate”, “expect”, “if”, “intend”, “may”, “plan”, “possible”, “probable”, “project”, “should”, “would”, “will” or other similar terms. However, these terms are not the exclusive means of identifying forward-looking statements. All statements regarding the Issuer’s business strategies, plans and prospects and the future prospects of the industry which the Issuer is in are forward-looking statements. These forward-looking statements, including but not limited to statements as to the Issuer’s prospects, future plans, other expected industry trends and other matters discussed in this White Paper regarding the Issuer are matters that are not historic facts, but only predictions.

These forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause the actual future results, performance or achievements of the Issuer to be materially different from any future results, performance or achievements expected, expressed or implied by such forward-looking statements. These factors include, amongst others: changes in political, social, economic and stock or cryptocurrency market conditions, and the regulatory environment in the countries in which the Issuer conducts its business and operations; the risk that the Issuer may be unable to execute or implement its business strategies and future plans; changes in interest rates and exchange rates of fiat currencies and cryptocurrencies; changes in the anticipated

growth strategies and expected internal growth of the Issuer and the ASIAN DRAGON SOLUTIONS; changes in the availability and fees payable to the Issuer in connection with its businesses and operations or on the ASIAN DRAGON SOLUTIONS; changes in the availability and salaries of employees who are required by the Issuer to operate their respective businesses and operations; changes in preferences of users of the ASIAN DRAGON SOLUTIONS;

All forward-looking statements made by or attributable to the Issuer or persons acting on behalf of the Issuer are expressly qualified in their entirety by such factors. Given that risks and uncertainties that may cause the actual future results, performance or achievements of the Issuer to be materially different from that expected, expressed or implied by the forward-looking statements in this White Paper, undue reliance must not be placed on these statements. These forward-looking statements are applicable only as of the date of this White Paper. Neither the Issuer nor any other person represents, warrants, and/or undertakes that the actual future results, performance or achievements of the Issuer will be as discussed in those forward-looking statements. The actual results, performance or achievements of the Issuer may differ materially from those anticipated in these forward-looking statements. Nothing contained in this White Paper is or may be relied upon as a promise, representation or undertaking as to the future performance or policies of the Issuer. Further, the Issuer disclaims any responsibility to update any of those forward-looking statements or publicly announce any revisions to those forward-looking statements to reflect future developments, events or circumstances, even if new information becomes available or other events occur in the future.

THIRD PARTY INFORMATION AND NO CONSENT OF OTHER PERSONS

This White Paper includes information obtained from various third-party sources (“Third Party Information”). None of the publishers of the Third-Party Information has consented to the inclusion of the Third-Party Information in this White Paper and is therefore not liable for the Third-Party Information. While the Issuer has taken reasonable action to ensure that the Third-Party Information have been included in their proper form and context, neither the Issuer, nor its directors, executive officers and employees acting on its behalf, has independently verified the accuracy, reliability, completeness of the contents, or ascertained any applicable underlying assumption, of the relevant Third Party Information. Consequently, neither the Issuer nor its directors, executive officers and employees acting on their behalf makes any representation or warranty as to the accuracy, reliability or completeness of such information and shall not be obliged to provide any updates on the same.

TERMS USED

To facilitate a better understanding of the ASIAN DRAGON (AD) tokens being offered for purchase by the Issuer, and the businesses and operations of the Issuer, certain technical terms and abbreviations, as well as, in certain instances, their descriptions, have been used in this White Paper. These descriptions and assigned meanings should not be treated as being definitive of their meanings and may not correspond to standard industry meanings or usage. Words importing the singular shall, where applicable, include the plural and vice versa and words importing the masculine gender shall, where applicable, include the feminine and neuter genders and vice versa. References to persons shall include corporations. changes in the future capital needs of the Issuer and the availability of financing and capital to fund such needs; war or acts of international or domestic terrorism; occurrences of catastrophic events, natural disasters and acts of God that affect the businesses and/or ASIAN DRAGON (AD) tokens operations of the Issuer; other factors beyond the control of the Issuer; and any risk and uncertainties associated with the Issuer and its business and operations, the Tokens, the ASIAN DRAGON SOLUTIONS or protocol and the ASIAN DRAGON (AD). Changes in competitive conditions under which the Issuer operates, and the ability of the Issuer to compete under such conditions;

NO ADVICE

No information in this White Paper should be considered to be business, legal, financial or tax advice regarding the Issuer, the Tokens, the ASIAN DRAGON SOLUTIONS or protocol, or the ASIAN DRAGON (AD). You should consult your own legal, financial, tax or other professional advisor regarding the Issuer and its business and operations, the Tokens, the ASIAN DRAGON SOLUTIONS or protocol, and the ASIAN DRAGON (AD). You should be aware that you may be required to bear the financial risk of any exchange for of Tokens for an indefinite period of time. None of the advisors engaged by us has made or purports to make any statement in this White Paper or any statement upon which a statement in this White Paper is based and each of them makes no representation regarding any statement in this White Paper and to the maximum extent permitted by law, expressly disclaims and takes no responsibility for any liability to any person which is based on, or arises out of, any statement, information or opinions in, or omission from, this White Paper.

NO FURTHER INFORMATION OR UPDATE

No person has been or is authorised to give any information or representation not contained in this White Paper in connection with the Issuer and its business and operations, the Tokens, the ASIAN DRAGON SOLUTIONS or protocol, or the ASIAN DRAGON (AD) and, if given, such information or representation must not be relied upon as having been authorised by or on behalf of the Issuer. The ASIAN DRAGON (AD) shall not, under any circumstances, constitute a continuing representation or create any suggestion or implication that there has been no change, or development reasonably likely to involve a material change in the affairs, conditions and prospects of the Issuer or in any statement of fact or information contained in this White Paper since the date hereof.

RESTRICTIONS ON DISTRIBUTION AND DISSEMINATION

The distribution or dissemination of this White Paper or any part thereof may be prohibited or restricted by the laws, regulatory requirements and rules of any jurisdiction. In the case where any restriction applies, you are to inform yourself about, and to observe, any restrictions which are applicable to your possession of this White Paper or such part thereof (as the case may be) at your own expense and without liability to the Issuer. Persons to whom a copy of this White Paper has been distributed or disseminated, provided access to or who otherwise have the White Paper in their possession shall not circulate it to any other persons, reproduce or otherwise distribute this White Paper or any information contained herein for any purpose whatsoever nor permit or cause the same to occur. There may be no inherent value of the Tokens and the Tokens are not a currency issued by any central bank or national, supra-national or quasi-national organisation, nor are they backed by any hard assets or other credit. Unlike fiat currency, the Tokens may have no use or recognition outside the ASIAN DRAGON SOLUTIONS. The Issuer is not responsible for nor does it pursue the circulation and trading of Tokens on the market. Trading of Tokens merely depends on the consensus on its value between the relevant market participants (if any), and no one is or will be obliged to purchase any Token from any holder of the Token, including the purchasers, nor does or will anyone guarantee the liquidity or market price of Tokens to any extent at any time. Accordingly, the Issuer cannot ensure that there will be any demand or market for Tokens, or that the Purchase Price is indicative of the market price of Tokens after they have been made available for trading on a cryptocurrency exchange. Representatives of various central banks and regulatory authorities, as well as senior market participants and academics, have warned of serious risks in relation to

- (i) initial private or public token sales,
- (ii) cryptocurrency and digital tokens trading, including the extreme volatility, the lack of underlying economic value, the lack of regulation, and
- (iii) the use of cryptocurrencies or digital tokens for money laundering or money transfers. There is a real possibility that some or a conjunction of these factors will lead to government or regulatory intervention or market action which could severely affect the price and liquidity of the Tokens. Unlike currency in bank accounts or accounts at other financial institutions, which may be subject to deposit protection schemes, the Tokens are uninsured unless a holder specifically obtains private insurance to insure them. Thus, in the event of loss or loss of utility value, there is no public insurer or private insurance arranged by the Issuer, to offer recourse to a Token holder. Future sales of the Tokens could materially and adversely affect the market price of Tokens. Any future sale of the Tokens (which were not available for sale in the ASIAN DRAGON (AD)) would increase the supply of Tokens and this may result in a downward price pressure on the Tokens. The sale or distribution of a significant number of Tokens outside of the ASIAN DRAGON (AD), or the perception that such further sales or issuance may occur, could adversely affect the trading price of the Tokens. The Issuer reserves the right to change the duration of any timeframe for the distribution of the Tokens, including, without limitation, the unavailability or non-functionality of the website or other unforeseen procedural or security issues. Negative publicity may materially and adversely affect the price of the Tokens. Negative publicity involving the Issuer, the ASIAN DRAGON SOLUTIONS, the Tokens or any of the key personnel of the Issuer may materially and adversely affect the market perception or market price of the Tokens, whether or not such negative publicity is justified. The Tokens may not end up being popular, prevalent or widely distributed. The Tokens may remain of marginal interest in the long run, appealing to only a minimal fraction of holders. An absence of active holders or low level of utilization may negatively affect the long-term development and future of the Tokens and reduce or adversely affect the utility of the Tokens. There is no assurance of any success of the ASIAN DRAGON SOLUTIONS. The value of, and demand for, the Tokens depends on the performance of the ASIAN DRAGON (AD) sales volumes. There is no assurance that the ASIAN DRAGON SOLUTIONS will gain traction after its launch and achieve any commercial

success. As with any project, the development of the ASIAN DRAGON SOLUTIONS, and the execution of the project more broadly, carries with it the risk of delay and even failure. The core team has a relevant track record of development and business management experience, but this is not a guarantee of success. The team will endeavour to achieve the milestones outlined in this White Paper; however, it is under no obligation to do so.

The ASIAN DRAGON SOLUTIONS has not been officially launched, developed, finalised or integrated and is subject to further changes, updates and adjustments prior to its official release. Such changes may result in unexpected and unforeseen effects on its projected appeal to users, and hence impact its success. While the Issuer has made every effort to provide a realistic estimate, there is also no assurance that the cryptocurrencies raised in the ASIAN DRAGON (AD) will be sufficient for the development and integration of the ASIAN DRAGON SOLUTIONS. For the foregoing or any other reasons, the development and integration of the ASIAN DRAGON SOLUTIONS may not be completed and there is no assurance that it will be launched at all. As such, distributed Tokens may hold little value, and this would impact their trading price.

Further, while the Issuer will make every reasonable effort to complete the ASIAN DRAGON SOLUTIONS, due to the technically complex nature of the ASIAN DRAGON SOLUTIONS, the Issuer could face difficulties from time to time that may be unforeseeable or unresolvable. Accordingly, it is possible that the development of the ASIAN DRAGON SOLUTIONS could fail, terminate or be delayed at any time for any reason, and an official completed version of the ASIAN DRAGON SOLUTIONS may not be released and there may never be an operational ASIAN DRAGON SOLUTIONS. Development failure or termination may render the Tokens untransferable, of reduced or no utility, or obsolete. In particular, any potential future utility of the Tokens indicated in this White Paper only represent the Issuer's strategic intention in the future development of the project and there is no guarantee or representation that such intention will be achieved in part or in full. In particular, the potential future token utility will be subject to a fully compliant regulatory infrastructure being set up and there is no guarantee that such infrastructure will be set up. Further, the project is still at an early development phase. Its governance structure, fees, purpose, consensus mechanism, algorithm, code, infrastructure design and other technical specifications and parameters may be updated and changed frequently without notice. While this White Paper contains the key information currently available in relation to the project, it is subject to adjustments and updates from time to time. The ASIAN DRAGON SOLUTIONS may also be subject to regulatory supervision in a relevant jurisdiction and distribution of information relating to the ASIAN DRAGON SOLUTIONS may be restricted to qualified persons pursuant to applicable laws and regulations. The Token holders may not have full or timely access to all the information relevant to the project (including the ASIAN DRAGON SOLUTIONS or the Tokens). Although we intend for the Tokens and the ASIAN DRAGON SOLUTIONS to follow the specifications set forth in this White Paper, and we will take commercially reasonable steps toward those ends, we may have to make changes to the specifications of the Tokens or the ASIAN DRAGON SOLUTIONS for any number of reasons. This could create the risk that the Tokens or the ASIAN DRAGON SOLUTIONS, as further developed and maintained, may not meet participants' expectations. Furthermore, despite the Issuer's good faith efforts to develop and maintain the ASIAN DRAGON SOLUTIONS, it is possible that the ASIAN DRAGON SOLUTIONS will experience malfunctions or otherwise fail to be adequately developed or maintained, which may negatively impact the ASIAN DRAGON SOLUTIONS and the Tokens. If and when the ASIAN DRAGON SOLUTIONS is fully developed, there is no assurance they will be widely adopted or utilised by its target users. The trading price of the Tokens may fluctuate following the ASIAN DRAGON (AD)

The prices of cryptographic tokens in general are highly volatile when compared to other assets such as stocks, bonds, and other alternative investment instruments, and accordingly the prices of cryptographic tokens can fluctuate significantly over short periods of time. The demand for, and correspondingly the market price of, the Tokens may fluctuate significantly and rapidly in response to, among others, the following factors, some of which are beyond the control of the Issuer: new technical innovations; analysts' speculations, recommendations, perceptions or estimates of the Token's market price or the Issuer's financial and business performance; changes in market valuations and token prices of entities with operations similar to that of the Issuer, whether or not they are made available for sale and purchase on the same crypto currency exchanges as the Tokens; announcements by the Issuer of significant events, for example partnerships, sponsorships, new product developments fluctuations in market prices and trading volume of cryptocurrencies on cryptocurrency exchanges; additions or departures of key personnel of the Issuer; success or failure of the Issuer's management in implementing business and growth strategies; and changes in conditions affecting the blockchain or financial technology industry, the general economic conditions or market sentiments, or other events or factors. No person should commit any amount to the purchase of any Tokens which exceeds an amount they would be willing to lose. It is also possible that alternative platforms could be established that utilize the same source code and protocol underlying the ASIAN

DRAGON SOLUTIONS and the Tokens. These may attempt to facilitate services that are materially similar to those provided by the Issuer through the ASIAN DRAGON SOLUTIONS. Such alternative platforms may compete with the ASIAN DRAGON SOLUTIONS, which could negatively impact the usage of the ASIAN DRAGON SOLUTIONS and the value of the Tokens. The funds raised in the ASIAN DRAGON (AD) are exposed to risks of theft. The Issuer will make every effort to ensure that the funds received from the ASIAN DRAGON (AD) will be securely held at such address as directed by the Issuer (“Receiving Address”). Further, upon receipt of the funds, the Issuer will make every effort to ensure that the funds received will be securely held by implementing security measures. Notwithstanding such security measures, there is no assurance that there will be no theft of any amount paid (in cryptocurrency or otherwise) as a result of hacks, mining attacks (including but not limited to double-spend attacks, majority mining power attacks and “selfish-mining” attacks), sophisticated cyber-attacks, malware attacks, coordinated attacks, Sybil attacks, smurfing and spoofing, distributed denials of service or errors, vulnerabilities or defects on the receiving Address, the ASIAN DRAGON (AD) Blockchain, or any other blockchain, or otherwise. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. In such event, even if the ASIAN DRAGON (AD) is completed, the Issuer may not be able to receive any amounts of cryptocurrency raised and the Issuer may not be able to utilise such funds for the development of the ASIAN DRAGON SOLUTIONS, and the launch of the ASIAN DRAGON SOLUTIONS might be temporarily or permanently curtailed. As such, the issued Tokens may hold little value, and this would impact its trading price. The Tokens are uninsured, unless you specifically obtain private insurance to insure them. In the event of any loss or loss of value, you may have no recourse. To account for these risks, the Issuer will continue to implement appropriate and proportionate security measures to safeguard the cryptocurrency obtained from the ASIAN DRAGON (AD). However, such risks cannot be fully eliminated. There may be tax implications, the tax characterization of the Tokens may not be certain in your jurisdiction. Participants must seek their own tax advice in connection with purchasing the Tokens or otherwise engaging in transactions in connection with the Tokens, which may result in adverse tax consequences to participants, including withholding taxes, income taxes, and tax reporting requirements. There may be issues in relation to privacy and leak of personal data as part of the ASIAN DRAGON (AD) and the subsequent verification processes, the Issuer may collect personal information from participants. The collection of such information is subject to applicable laws and regulations (and where applicable, the Issuer's privacy policy from time to time). All information collected will be used for purposes of ASIAN DRAGON (AD) and management of the ASIAN DRAGON SOLUTIONS (or the project more generally) and may be transferred to contractors, service providers and consultants worldwide as appointed by the Issuer. Apart from breaches by external third parties, the Issuer and its appointed entities may also suffer from internal security breach whereby their employees may misappropriate, misplace or lose personal information of the Token holders.

2. RISKS RELATING TO THE RECEIVING ADDRESS AND WALLETS

The Receiving Address may be compromised, and the cryptocurrencies may not be able to be disbursed. The Receiving Address is designed to be secure. However, in the event that the Receiving Address is, for any reason compromised (including but not limited to scenarios of the loss of keys to such Receiving Address), the funds held by the Receiving Address may not be able to be retrieved and disbursed and may be permanently unrecoverable. In such event, even if the ASIAN DRAGON (AD) is successful, the Issuer will not be able to receive the funds raised and the Issuer will not be able to utilise such funds for the development of the ASIAN DRAGON SOLUTIONS, and the implementation of the ASIAN DRAGON SOLUTIONS might be temporarily or permanently curtailed. As such, distributed ASIAN DRAGON (AD) tokens may hold little value, and this may impact its trading price. The loss or compromise of information relating to your wallet may affect your access and possession of the Tokens where your access to the Tokens in a cryptocurrency wallet (“Wallet”) depends on, among other things, the safeguards to your information relating to such Wallet, including but not limited to your user account information, address, private key, and password. In the event that any of the foregoing is lost or compromised, your access to the Wallet may be curtailed and thereby adversely affect your access and possession to the Tokens, including such Tokens being unrecoverable and permanently lost. The Wallet or Wallet service provider may not be technically compatible with the Tokens the Wallet or Wallet service provider may not be technically compatible with the Tokens, which may result in the delivery of Tokens being unsuccessful or affect your access to such Tokens. You are responsible for your own selection of an appropriate Wallet. There are risks associated with the underlying blockchain. Since the Tokens are based on blockchain technology, any malfunction, breakdown or abandonment of the relevant blockchain may have a material adverse effect on the Tokens or the ASIAN DRAGON SOLUTIONS. Moreover, advances in cryptography, or technical advances such as the development of quantum computing, could present risks to the Tokens by rendering ineffective any applicable cryptographic consensus mechanism that underpins the blockchain. Loss of private key in general, blockchain assets are controllable only by those who know the unique private cryptographic key relating to the network address at which the blockchain assets are held. To the extent a private key is lost, destroyed or otherwise compromised and no backup of the private key is accessible, you may not be able to access the blockchain asset

associated with the corresponding address and the private key will not be capable of being restored by the network. Any loss of private keys relating to digital wallets used to store blockchain assets could have a material adverse effect on our business or you. The loss or destruction of a private key will also permanently and irreversibly deny the holder access to their Tokens. The Tokens are controlled only by the validation of both the relevant unique public and private keys through the local or online Wallet. While it is recommended that all the Token holders protect and securely store their private keys, each holder is responsible for safeguarding the private keys applicable to their own Wallets. There may be verification failure Participants in the ASIAN DRAGON (AD) are required to complete know-your-customer ("KYC") and anti-money laundering ("AML") and counter-terrorist financing ("CTF") checks. The delivery of the Tokens to an entity or individual is contingent upon the completion of such checks. If the entity or individual is unable to complete all required verifications, they may not receive the Tokens or participate on the ASIAN DRAGON SOLUTIONS. There is no guarantee that you will receive compensation or refunds of any purchase proceeds.

There may be risk during the transaction interval There is a time interval between the receipt of payments from the participant by the Issuer and the release of the Tokens to the relevant participant's digital Wallet. During this time, the Issuer may have possession of participants' digital currency and it may itself be susceptible to various risks, including credit risk and cybersecurity risk. The Issuer may lose participants' digital currency entirely due to unforeseen circumstances. In any such scenario, the Issuer will not be obliged to compensate participants.

RISKS RELATING TO THE ISSUER

The ASIAN DRAGON SOLUTIONS is operated and maintained by the Issuer. Any events or circumstances which adversely affect the Issuer may have a corresponding adverse effect on the ASIAN DRAGON SOLUTIONS if such events or circumstances affect the Issuer's ability to maintain the ASIAN DRAGON SOLUTIONS. This would have an impact on the trading price of the Tokens. The Issuer may be materially and adversely affected if it fails to effectively manage its operations as its business develops and evolves, which would have a direct impact on its ability to maintain the ASIAN DRAGON SOLUTIONS and consequently the trading price of the Tokens. The financial technology and cryptocurrency industries and the markets in which the Issuer competes have grown rapidly and continue to grow rapidly and evolve in response to new technological advances, changing business models and other factors. As a result of this constantly changing environment, the Issuer may face operational difficulties in adjusting to the changes, and the longer-term viability of the Issuer will depend on its ability to manage its operations, adapt to technological advances and market trends and ensure that it hires qualified and competent employees, and provide proper training for its personnel. As its business evolves, the Issuer must also expand and adapt its operational infrastructure. The Issuer's business relies on its blockchain-based software systems, cryptocurrency wallets or other related token storage mechanisms, blockchain technology and smart contract technology, and to manage technical support infrastructure for the ASIAN DRAGON SOLUTIONS effectively, the Issuer will need to continue to upgrade and improve its data systems and other operational systems, procedures and controls. These upgrades and improvements will require a dedication of resources, are likely to be complex and increasingly rely on hosted computer services from third parties that the Issuer does not control. If the Issuer is unable to adapt its systems and organisation in a timely, efficient and cost-effective manner to accommodate changing circumstances, its business, financial condition and results of operations may be adversely affected. If the third parties on whom the Issuer relies are subject to a security breach or otherwise suffer disruptions that impact the services the Issuer utilises, the integrity and availability of its internal information could be compromised, which may consequently cause the loss of confidential or proprietary information, and economic loss. The loss of financial, labour or other resources, and any other adverse effect on the Issuer's business, financial condition and operations, would have a direct adverse effect on the Issuer's ability to maintain the ASIAN DRAGON SOLUTIONS. As the ASIAN DRAGON SOLUTIONS is the main product to which the Tokens relate, this may adversely impact the trading price of the Tokens. There may be weaknesses, vulnerabilities or bugs in the ASIAN DRAGON (AD) smart contract The Issuer will make reasonable efforts to ensure that the smart contracts underlying the Tokens are audited, tested and approved by technical experts. However, as smart contract technology is still in its early stage of development and its application of experimental nature carries significant operational, technological, financial, regulatory and reputational risks, there are inherent risks that such smart contracts could contain weaknesses, vulnerabilities or bugs. There is the risk that smart contracts may contain bugs or weaknesses which may negatively affect the Tokens or result in the loss of the Tokens, as well as the loss of ability to access or control the Tokens. In such events, there may be no remedy and holders of the Tokens are not guaranteed any remedy, refund or compensation. Purchasers of Tokens should understand and accept that there are no warranties that Tokens are fit for a particular purpose or do not contain any weaknesses, vulnerabilities or bugs which would cause loss in their value. In the event that any of the aforementioned risks materialises, the Issuer's business strategies, results of operations and prospects may also be adversely affected.

The Issuer may experience system failures, unplanned interruptions in its network or services, hardware or software defects, security breaches or other causes that could adversely affect the Issuer's infrastructure network, or the ASIAN DRAGON SOLUTIONS. The Issuer is unable to anticipate when there would be occurrences of hacks, cyber-attacks, mining attacks (including but not limited to double-spend attacks, majority mining power attacks and "selfish-mining" attacks), malware attacks, coordinated attacks, Sybil attacks, smurfing and spoofing, distributed denials of service or errors, vulnerabilities or defects in the ASIAN DRAGON SOLUTIONS, the Tokens, the Receiving Address, the Wallet or any technology (including but not limited to smart contract technology) on which the Issuer, the ASIAN DRAGON SOLUTIONS, the Tokens, the Receiving Address, and the Wallet rely or in the ASIAN DRAGON (AD) Blockchain or any other blockchain. Such events may include, for example, flaws in programming or source code leading to exploitation or abuse thereof. The Issuer may not be able to detect such hacks, mining attacks (including but not limited to double-spend attacks, majority mining power attacks and "selfish-mining" attacks), cyber-attacks, malware attacks, coordinated attacks, Sybil attacks, smurfing and spoofing, distributed denials of service errors vulnerabilities or defects in a timely manner, and may not have sufficient resources to efficiently cope with any such attack, including, without limitation, where multiple service incidents happen simultaneously or in rapid succession. While the Issuer adopts quality assurance procedures to help ensure the source code as accurately as possible reflect their intended operation, the source code cannot be guaranteed to be flawless. They may contain bugs, defects, inconsistencies, flaws or errors, which may disable some functionality, create vulnerabilities or cause instability. Such flaws may compromise the predictability, usability, stability, and/or security of the Tokens and the ASIAN DRAGON SOLUTIONS. Furthermore, where the ASIAN DRAGON SOLUTIONS may be based on open-source software, there is a risk that a third party or a member of the Issuer's team may intentionally or unintentionally introduce weaknesses into the core infrastructure of the ASIAN DRAGON SOLUTIONS, which could negatively affect the ASIAN DRAGON SOLUTIONS and the utility of the Tokens. The Issuer's network or services, which would include the ASIAN DRAGON SOLUTIONS, could be disrupted by various events, including natural disasters, equipment breakdown, network connectivity downtime, power losses, or even intentional disruptions of its services, such as disruptions caused by software viruses or attacks by unauthorised users, some of which are beyond the Issuer's control. Although the Issuer has taken steps against malicious attacks on its appliances or its infrastructure, which are critical for the maintenance of the ASIAN DRAGON SOLUTIONS and its other services, there can be no assurance that cyber-attacks, such as distributed denials of service, will not be attempted in the future, and that any of the Issuer's enhanced security measures will be effective. The Issuer may be prone to attacks on its infrastructure intended to steal information about its technology, financial data or user information or take other actions that would be damaging to the Issuer and users of the ASIAN DRAGON SOLUTIONS. Any significant breach of the Issuer's security measures or other disruptions resulting in a compromise of the usability, stability and security of the Issuer's network or services (including the ASIAN DRAGON SOLUTIONS) may adversely affect the trading price of the Tokens. If the demand for processing power outgrows that forecasted, the network of the ASIAN DRAGON SOLUTIONS could be destabilized and/or stagnated. This may create opportunities for fraudulent activities to arise, including but not limited to false or unauthorized transactions. All of these may adversely impact the usability, stability and security of the ASIAN DRAGON SOLUTIONS and affect the utility and value of the Tokens. We are dependent in part on the location and data centre facilities of third parties. The Issuer's infrastructure network is in part established through servers which it owns and are located on premises owned and operated by third parties, and servers that the Issuer rents at data centre facilities of third parties. If the Issuer is unable to renew its data facility lease on commercially reasonable terms or at all, the Issuer may be required to transfer its servers to a new data centre facility and may incur significant costs and possible service interruption in connection with the relocation. These facilities are also vulnerable to damage or interruption from, among others, natural disasters, arson, terrorist attacks, power losses, and telecommunication failures. Additionally, the third-party providers of such facilities may suffer breaches of security as a result of third-party action, employee error, malfeasance or otherwise, and a third party may obtain unauthorised access to the data on such servers. As techniques used to obtain unauthorised access to, or to sabotage systems change frequently and typically are not recognised until launched against a target, the Issuer and the providers of such facilities may be unable to anticipate these techniques or to implement adequate preventive measures. Any such security breaches or damages which occur and which impact upon the Issuer's infrastructure network and/or the ASIAN DRAGON SOLUTIONS may adversely impact the utility and value of the Tokens.

General global market and economic conditions may have an adverse impact on the Issuer's operating performance, results of operations and cash flows. The Issuer has been and will continue to be affected by general global economic and market conditions. Challenging economic conditions worldwide have from time to time, contributed, and may continue to contribute, to slowdowns in the information technology industry at large. Weakness in the economy could have a negative effect on the Issuer's business, operations and financial condition, including decreases in revenue and operating cash flows. Additionally, in a down-cycle economic environment,

the Issuer may experience the negative effects of increased competitive pricing pressure and a slowdown in commerce and usage of the ASIAN DRAGON SOLUTIONS and may delay or suspend the structuring, licensing, and launch of the anticipated future business lines. Suppliers on which the Issuer relies for servers, bandwidth, location and other services could also be negatively impacted by economic conditions that, in turn, could have a negative impact on the Issuer's operations or expenses. There can be no assurance, therefore, that current economic conditions or worsening economic conditions or a prolonged or recurring recession will not have a significant adverse impact on the Issuer's business, financial condition and results of operations and hence the ASIAN DRAGON SOLUTIONS, which would correspondingly impact the trading price of the Tokens. In addition, even if the ASIAN DRAGON SOLUTIONS is launched, the ongoing success of the ASIAN DRAGON SOLUTIONS relies on the interest and participation of third parties. There can be no assurance or guarantee that there will be sufficient interest or participation in the ASIAN DRAGON SOLUTIONS. The Issuer or the Tokens may be affected by regulations. The regulatory environment relating to blockchain and cryptocurrencies is still developing. Cryptocurrencies have been the subject of regulatory scrutiny by various regulatory bodies around the world. Regulatory initiatives by governments and uniform law proposals by academics and participants in the cryptocurrency economy may impact the use of cryptocurrency and digital tokens in a manner that adversely affects the ASIAN DRAGON SOLUTIONS or the Issuer. The global regulatory landscape for digital assets has been inconsistent and continues to evolve. There are various approaches a government may take. Some governments have taken an accommodating approach to the regulation of digital assets while others have banned their use. Different jurisdictions may apply different legal categorization of digital assets, characterising them as, for example, currencies, commodities, virtual currencies, virtual commodities, or other property or instruments. Some jurisdictions may restrict or ban cryptocurrency- or digital token-related activities. Some countries have taken, and one or more countries may in the future take, regulatory actions that severely restrict the right to acquire, own, hold, sell or use cryptocurrencies or digital tokens or to exchange them for traditional currency. Furthermore, many aspects of the Tokens and ASIAN DRAGON SOLUTIONS also involve untested areas of law and regulation. The Tokens could be deemed from time to time a virtual commodity, a digital asset or even money, securities or currency in various jurisdictions and therefore could be prohibited from being sold, purchased, traded, distributed or held in certain jurisdictions. There is no guarantee that the Tokens and the Issuer can maintain any particular legal or regulatory status in any particular jurisdiction at any time. The Issuer may have to disallow people based on their citizenship or location from accessing the ASIAN DRAGON SOLUTIONS or engaging in any transactions that involve the Tokens if doing so becomes legally or commercially unsustainable. There can be no guarantee that new laws, regulations and practices specifically relating to blockchain and cryptocurrencies, digital tokens and transactions in relation to ICOs will not be promulgated in the future. The promulgation of such new laws, regulations and practices may operate to the advantage or disadvantage of the Tokens, the ASIAN DRAGON SOLUTIONS or the Issuer. The Issuer or the Tokens may be affected by newly implemented regulations relating to cryptocurrencies or cryptocurrency markets, including having to take measures to comply with such regulations and be subject to regulatory licensing or registration requirements in certain jurisdictions, or having to deal with queries, notices, requests or enforcement actions by regulatory authorities, which may come at a substantial cost. The ASIAN DRAGON SOLUTIONS could be impacted by one or more regulatory actions that could impede or limit the ability of the Issuer to continue with the development of the ASIAN DRAGON SOLUTIONS and may also require substantial modifications to the ASIAN DRAGON SOLUTIONS. This may impact the appeal of the ASIAN DRAGON SOLUTIONS for users and result in decreased usage of the ASIAN DRAGON SOLUTIONS. The Issuer cannot foresee how regulations may impact the project and the ASIAN DRAGON SOLUTIONS development. Further, should the costs (financial or otherwise) of complying with such newly implemented regulations exceed a certain threshold, maintaining the ASIAN DRAGON SOLUTIONS may no longer be commercially viable and the Issuer may opt to discontinue the ASIAN DRAGON SOLUTIONS and/or the Tokens. Further, it is difficult to predict how or whether governments or regulatory authorities may implement any changes to laws and regulations affecting distributed ledger technology and its applications, including the ASIAN DRAGON SOLUTIONS and the Tokens. The Issuer may also have to cease operations in a jurisdiction that makes it illegal to operate in such jurisdiction or make it commercially unviable or undesirable to obtain the necessary regulatory approval(s) to operate in such jurisdiction. In scenarios such as the foregoing, the trading price of Tokens may be adversely affected, or Tokens may cease to be traded. Even where the Issuer core team seeks to obtain the relevant licenses and registrations in the relevant jurisdictions as necessary for the operations of the ASIAN DRAGON SOLUTIONS, there is no guarantee that such licenses and registration will be approved by the relevant regulatory authorities or the licenses and registrations can be maintained. Where applicable regulatory licenses or registrations are not, or cannot be, obtained or maintained, this may significantly affect the operations of the ASIAN DRAGON SOLUTIONS and the Issuer. Certain characteristics of cryptocurrencies and digital tokens may present higher AML / CTF risks, such as (without limitation):

- the anonymity provided by transacting in virtual currencies;
- the limited identification and verification of participants;
- the lack of clarity regarding the responsibility for KYC/AML/CTF compliance, supervision and

enforcement for these transactions that are segmented across several countries; and

- the lack of a central oversight body, and more stringent KYC/AML/CTF requirements may be applicable to the operations relating to the Tokens going forward.

There is also little precedent regarding how existing laws and regulations might treat the issue, fungibility, settlement finality, transfer, or other disposition of the Tokens. There is also little precedent on how existing laws and regulations might treat the rights and obligations between and among the Token holders, the ASIAN DRAGON SOLUTIONS and the Issuer. The occurrence of any related issue or dispute could have a material adverse effect on the Tokens, the ASIAN DRAGON SOLUTIONS or the Issuer. There may be risks relating to acts of God, natural disasters, wars, terrorist attacks, riots, civil commotions widespread communicable diseases and other force majeure events beyond the control of the Issuer. The ASIAN DRAGON (AD) and the performance of the Issuer's activities may be interrupted, suspended or delayed due to acts of God, natural disasters, wars, terrorist attacks, riots, civil commotions, widespread communicable diseases and other force majeure events beyond the control of the Issuer. Such events could also lead to uncertainty in the economic outlook of global markets and there is no assurance that such markets will not be affected, or that recovery from the global financial crisis would continue. In such events, the Issuer's business strategies, results of operations and prospects may be materially and adversely affected. Further, if an outbreak of such infectious or communicable diseases occurs in any of the countries in which the Issuer, the developers, data providers or data consumers have operations in the future, market sentiment could be adversely affected, and this may have a negative impact on the ASIAN DRAGON SOLUTIONS and community. There may be manipulation of the ASIAN DRAGON SOLUTIONS A number of individuals may directly or indirectly hold significant portions of the total available Tokens. These Token holders may have significant influence through the use of their Tokens. These significant Token holders may, acting alone or in concert, not necessarily make decisions that are in the best interests of the other Token holders or of the ASIAN DRAGON SOLUTIONS as a whole.

GOVERNANCE RISKS

The Tokens confer no governance or voting rights of any kind with respect to the ASIAN DRAGON SOLUTIONS or the Issuer. All decisions involving the ASIAN DRAGON SOLUTIONS or the Issuer will be made by executives, directors or members of the Issuer, including, but not limited to, decisions to discontinue the ASIAN DRAGON SOLUTIONS, to sell more Tokens for use on the ASIAN DRAGON SOLUTIONS, or to sell or liquidate the Issuer. Conflicts of interest with the Token holders may arise. These decisions could adversely affect the ASIAN DRAGON SOLUTIONS and the utility of the Tokens in circulation.

Intellectual Property and Information Access

The Issuer shall retain all right, title and interest in all of the Issuer's intellectual property, including, without limitation, inventions, ideas, concepts, code, discoveries, processes, marks, methods, software, compositions, formulae, techniques, information and data, whether or not patentable, copyrightable or protectable in trademark, and any trademarks, copyright or patents based thereon ("Intellectual Property Rights"). The Issuer shall exclusively own all Intellectual Property Rights in any change or improvement to any part of the project or the Issuer's technology made or created in the course of the performance of the project, save only to the extent such Intellectual Property Rights are used under third party license, including any open source licence.

The Token holders

shall not be entitled to any right, claim or warranty in respect of any content generated or hosted by or on behalf of the Issuer, or access to any information held by the Issuer, as part of the project. There may be unanticipated risks arising from the Tokens Cryptographic tokens such as the Tokens are a relatively new and dynamic technology. In addition to the risks included in this White Paper, there are other risks associated with your purchase, holding and use of the Tokens, including those that the Issuer cannot anticipate. Such risks may further materialise as unanticipated variations or combinations of the risks discussed hereto.

- End of whitepaper terms and conditions.
